# MULTI SYSTEM

HEATING/AIR CONDITIONING  
SOLUTIONS

RELIABLE, TRUSTED COMFORT | ENERGY EFFICIENT  
BACKED BY A 6 YEAR FULL PARTS & LABOUR WARRANTY WHEN  
PURCHASED THROUGH A FUJITSU ACCREDITED INSTALLER

# WHY CHOOSE FUJITSU?

## NEW ZEALAND'S FAVOURITE AIR®

Fujitsu General is a leading supplier of Heat Pumps/Air Conditioners in New Zealand with a portfolio to suit both residential and commercial applications.

We focus all of our research and manufacturing strengths into Heat Pumps/Air Conditioners which has resulted in the extensive range of world-class, energy efficient, market-leading systems.

Fujitsu General strives to consistently provide high quality, reliable products accompanied by superior customer service. To be 'New Zealand's Favourite Air®' means to be the best heating/air conditioning company to deal with in New Zealand, not just a leading heating/air conditioning brand.

That's why we're proud to say we are 'New Zealand's Favourite Air®'.

## PEACE OF MIND

Fujitsu's accreditation programme for installers helps ensure that you'll get the right fit for your unique space. A professional installation is essential for the efficient performance of any Heat Pump/Air Conditioner.

## 6 YEAR MANUFACTURER'S WARRANTY

Fujitsu believe in the quality and reliability of every Heat Pump/Air Conditioner we sell. When you purchase through a Fujitsu Accredited Installer, you'll get a full 6-year parts and labour warranty - for the reassurance you need that we stand behind our product for the long term.

## ONE OF THE MOST TRUSTED HEAT PUMP BRANDS

We are proud to consistently be voted one of the most trusted heat pump brands in the Reader's Digest Trusted Brands survey.

## AIR FILTERS

Fujitsu's Apple-Catechin filters contribute to a fresher and cleaner living environment.

## EXCEPTIONAL AFTER SALES SERVICE

At Fujitsu, we pride ourselves on providing exceptional customer service. Fujitsu General Assist is our in-house customer care and technical support department which was implemented to deliver a high level of support and accessibility to our customers.

# MULTI SYSTEMS

## WHAT ARE MULTI SYSTEMS?

Multi System heat pump/air conditioning is ideal where individual units are required in more than one room, for example one for the bedroom and one for the living area and when a traditional ducted system may not be suitable due to the homes design.

A Multi System allows for a variety of up to six indoor units to be connected to just one compact outdoor unit.

Each individual indoor unit can be controlled separately using an individual remote.

Multi Systems can be installed in a variety of applications from homes and offices to multi story buildings.

## WIDE RANGE OF OPTIONS

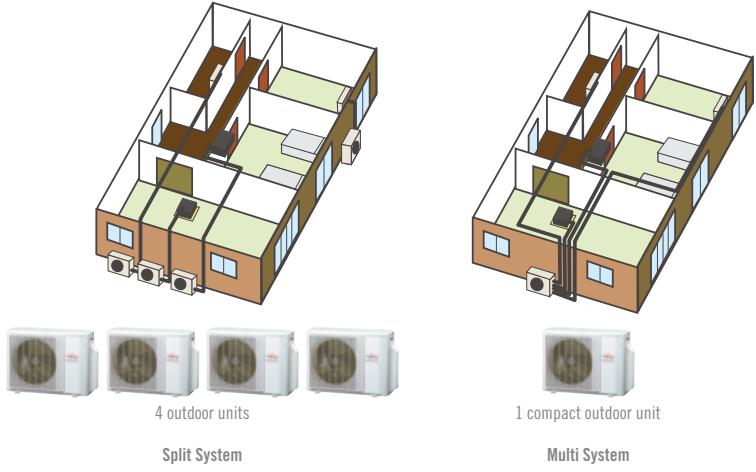

The range includes different indoor types and models ranging in capacity class from 2.0kW to 7.0kW.

With such a wide range of options to choose from, there's a combination to suit almost any application.

## FLEXIBLE INSTALLATION

Multiple indoor units can be connected to one outdoor unit rather than multiple outdoor units.

This means greater installation flexibility and space saving options. Long pipe runs offer even greater choices for installation.

# MULTI SYSTEMS

## THE 5 AND 6 ROOM MULTI SYSTEMS

The Fujitsu General 5 and 6 room Multi Systems are easy and efficient to install whilst offering more flexibility to accommodate the diversity of modern home design. With just one unit installed outside, the 12kW unit (AOTG36LBLA5) has the capacity to cover 2 to 5 rooms, and the 13.5kW unit (AOTG45LBLA6) can have up to 6 indoor units connected.

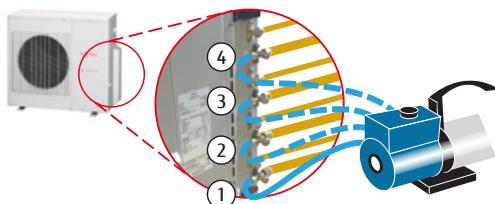

Central Controller (optional)

- Operation is simple with the optional large backlit LCD central controller
- The four-way navigation pad enables control of the indoor units individually or simultaneously
- Each unit can be monitored, and features such as economy mode, remote control prohibition or low noise mode settings can be activated from one central point

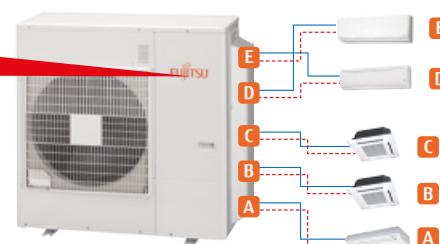

## EASY INSTALLATION

Fitting the new systems has been made easier - a centralised valve allows vacuuming to be performed from one location. This reduces installation time on systems as previously the evacuation process had to be performed up to four times. Installation has been made simpler with the pipe connection location optimised, and a commissioning mode is inbuilt for automatic wiring and piping checks from the outdoor unit.

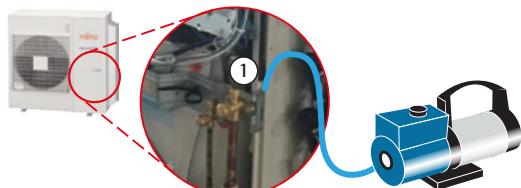

### 4 Rooms Multi System

Automatic wiring  
and piping check

### 5-6 Rooms Multi System

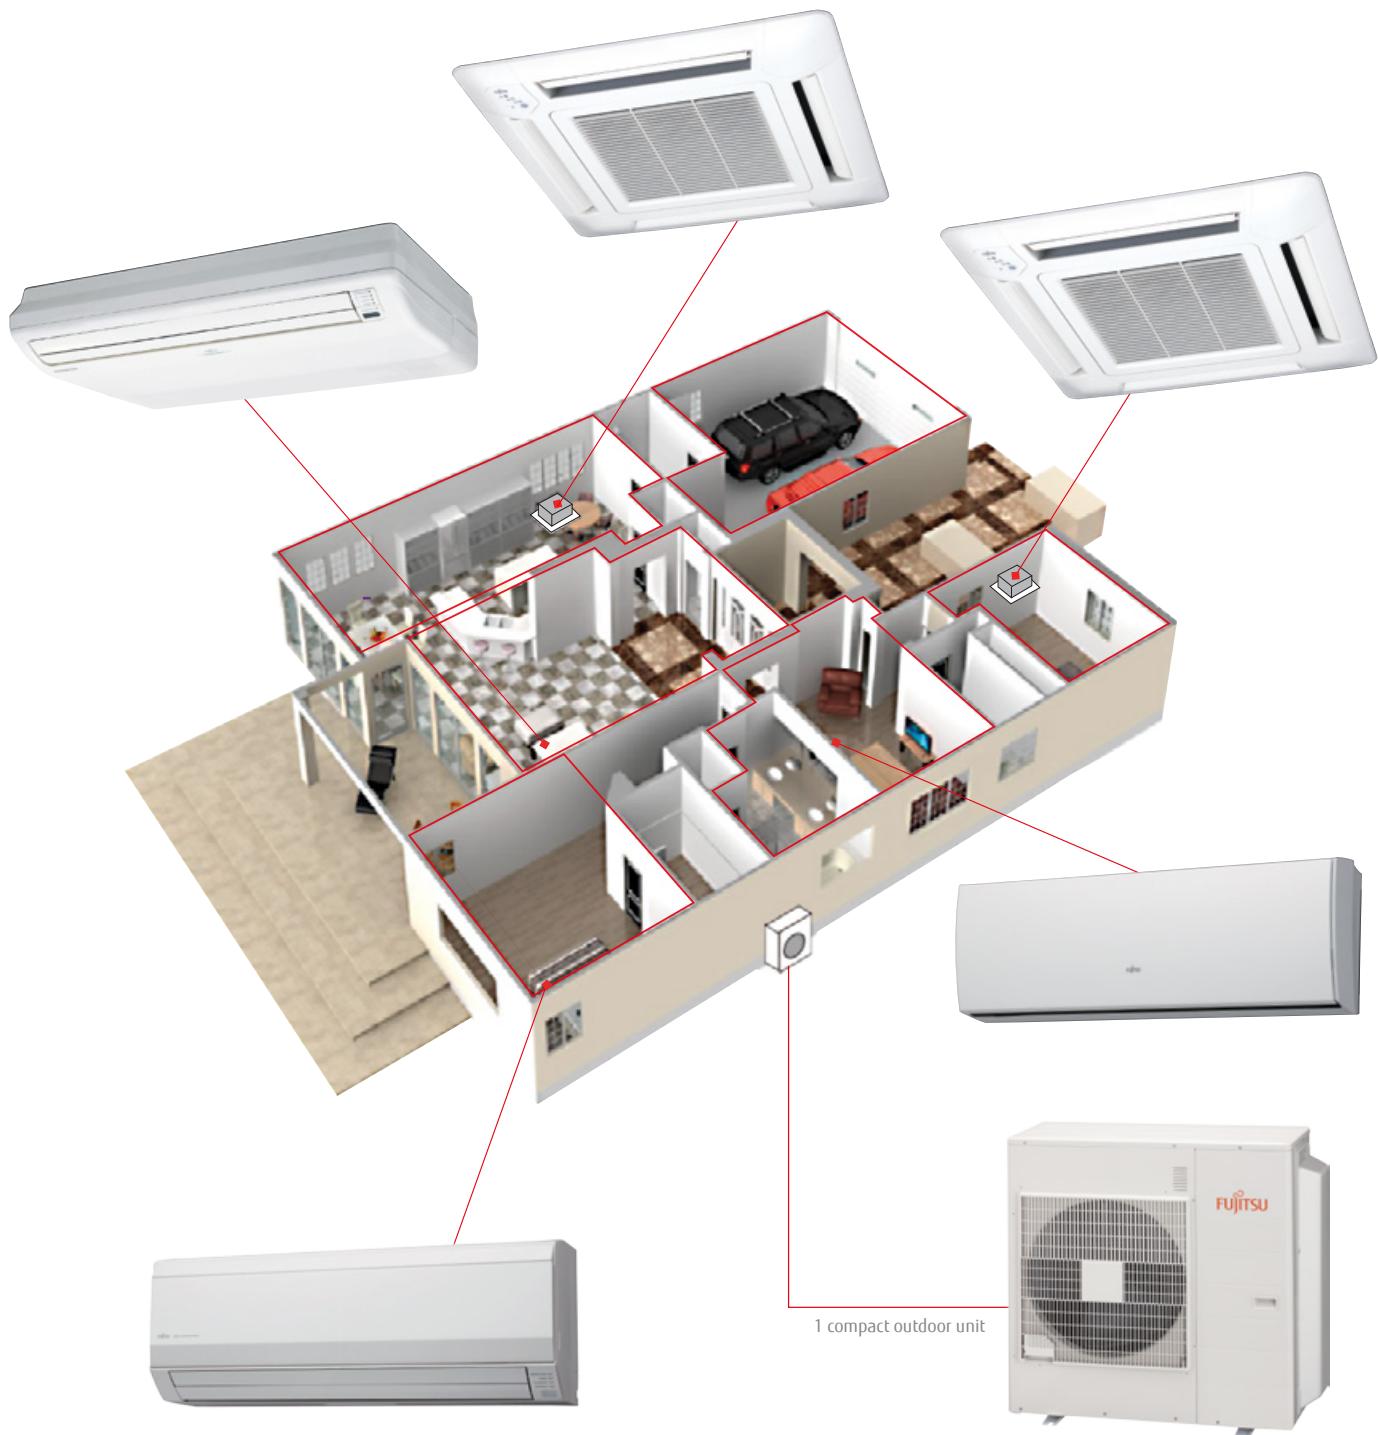

Automatic connection  
error repair

# INDOOR UNITS

## WALL MOUNTED - Classic Range

### ASTG07/09/12LVCC

Available in three capacity sizes, this range of compact wall mounted indoor units are suitable for small and medium size bedrooms.

### ASTG18LFCA & ASTG24LFCC

These large capacity indoor units are suitable for living areas.

### ASTG09/14LUCB

Designed for small bedrooms, these indoor units are discreet and have a sleek modern finish to suit most decors.

## FLOOR AND CEILING CONSOLE

### ABTG18LVTA

Suitable for floor or ceiling installation, this model is designed for a medium to large living area.

## COMPACT CASSETTE

### AUTG09/12LVLB-GR & AUTG18LVLA-GR

These compact cassette models have a 3 way\* or 4 way air flow direction option. Designed for commercial spaces, these units are suitable for meeting rooms.

## BULKHEAD

### ARTG09/12LLLBB & ARTG18LLTA

With 11 static pressure modes and a built in drain pump, these units are a great solution for a single room ducted system.

## SLIMLINE

### ARTG24LMC<sup>^</sup>

Compatible with AOTG36LBLA5 (5 room) and AOTG45LBLA6 (6 room) multi system outdoor units.

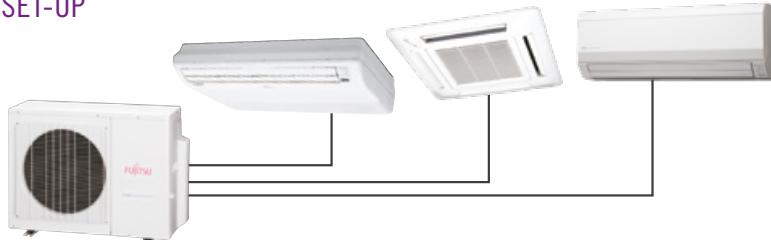

\*Requires an optional part: UTR-YDZB

<sup>^</sup>Indoor serial numbers on the ARTG24LMC models R114701 and above are multi system compatible.

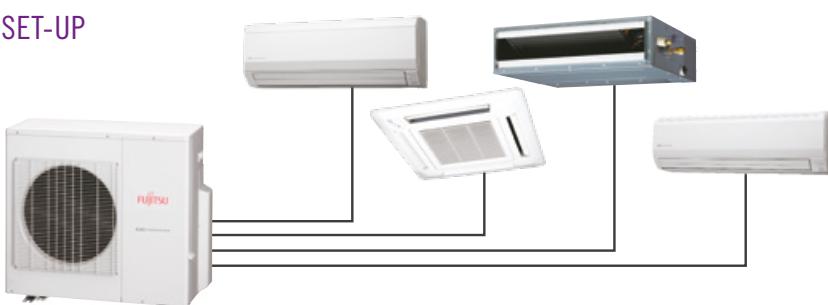

# OUTDOOR UNITS

## 3 ROOM SET-UP

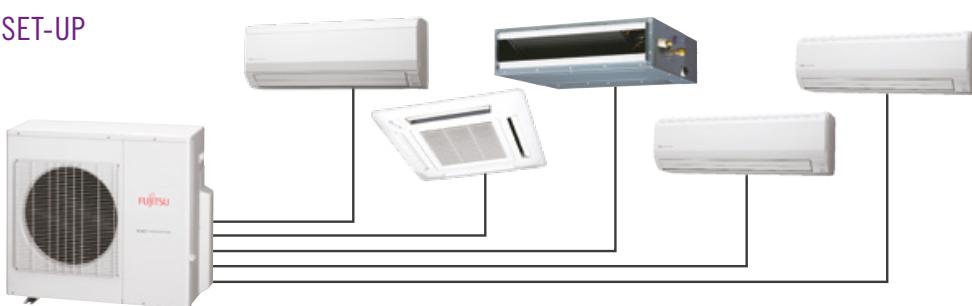

AOTG24LAT3    C 6.80kW / 23,200 BTU/h    H 8.00kW / 27,300 BTU/h

## 4 ROOM SET-UP

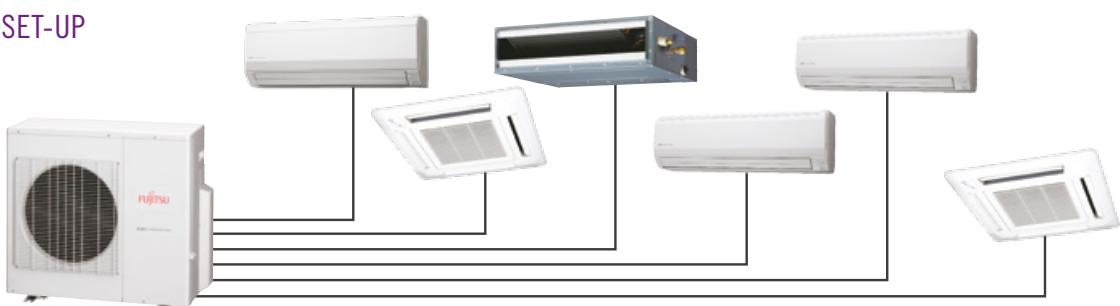

AOTG30LBTA4    C 8.00kW / 27,300 BTU/h    H 9.60kW / 32,800 BTU/h

## 5 ROOM SET-UP

AOTG36LBLA5    C 10.00kW / 34,100 BTU/h    H 12.00kW / 41,000 BTU/h

## 6 ROOM SET-UP

AOTG45LBLA6    C 12.50kW / 42,700 BTU/h    H 13.50kW / 46,100 BTU/h

# FEATURES\*

## COMFORT FUNCTIONS

### POWERFUL MODE

This mode will operate the heat pump/air conditioner at maximum capacity for 20 minutes, providing comfort faster than ever before.

### AUTOMATIC FAN SPEED

The micro processor automatically adjusts the airflow effectively to follow the changes of room temperature.

### DOUBLE SWING AUTOMATIC

Complex swing action of the louvres enables the unit to swing automatically both horizontal and vertical directions.

### 10°C HEAT OPERATION

The room temperature can be set to go no lower than 10°C, ensuring that the room does not get too cold when not occupied.

### RIGHT / LEFT SWING LOUVRE

The right / left louvre automatically swings in either direction.

### AUTOMATIC LOUVRE

The position of the louvres is set automatically to match the operating mode. It is also possible to adjust the louvres using the remote control.

### AUTO SHUT LOUVRE

The auto shut louvres close or open automatically when the unit stops or starts.

### AUTO-CHANGEOVER

The unit automatically switches between heating and cooling modes based on the temperature setting and room temperature.

### POWER DIFFUSER

An additional louvre that opens based on monitoring sensors to quickly enhance immediate comfort needs.

### CONNECTABLE FRESH AIR DUCT

Allows introduction of fresh air to occupied space.

### CONNECTABLE DISTRIBUTING DUCT

Systems are capable of attaching field-supplied branch ducts distributing the airflow.

### UP / DOWN SWING LOUVRE

The up / down louvre automatically swings up and down.

### AUTO RESTART

In the event of a temporary power failure, the unit will automatically restart in the same operating mode as before, once power supply is restored

### FRESH AIR INTAKE

Fresh air can be taken in by a fan which can be connected using an external control unit.

## CONVENIENCE FUNCTIONS

### SLEEP TIMER

The micro-processor gradually changes the room temperature, allowing you to sleep comfortably at night.

### PROGRAM TIMER

ON, OFF can be set up to 4 times in 1 day and up to 28 times in 1 week.

### WEEKLY TIMER

Different ON-OFF times can be set for up to 7 days.

### WEEKLY + SETBACK TIMER

Weekly + Setback timer can set temperature for two time spans and for each day of the week.

### FILTER SIGN

Select appropriate intervals for displaying the filter sign on the indoor unit according to the estimated amount of dust in the air of the room.

### ON-OFF TIMER

ON-OFF timer can be set to operate once every 24 hours.

### LOW NOISE MODE

The compressor speed and the outdoor unit fan speed are limited to reduce the operational noise.

### SUPER QUIET MODE

The indoor units fan can operate at a low speed to produce quieter operation.

## ENERGY EFFICIENT FUNCTIONS

### HUMAN SENSOR

The human sensor detects movement so that when occupants leave the room, the heat pump/air conditioner switches into energy saving mode after 20 minutes should no movement be detected. When occupants re-enter the room, it returns to normal operation.

### V-PAM

V-PAM inverter technology increases the maximum output of the compressor significantly and enables high power and high efficiency.

### i-PAM

i-PAM inverter technology enables high output and high efficiency performance.

### ECONOMY MODE

The economy operation will save energy in heating, cooling and dry mode. Economy operation is set by pressing the button on the remote control.

## CLEAN FUNCTIONS

### LONG-LIFE ION DEODORISATION FILTER

The filter deodorises by powerfully decomposing absorbed odours using the oxidising and reducing effects of ion generated by the ultra-fine-particle ceramic.

### WASHABLE PANEL

Dust which accumulates on the heat pump/air conditioner can be easily cleaned with a damp cloth.

### APPLE-CATECHIN FILTER

Fine dust, invisible mould spores and harmful microorganisms are absorbed onto the filter by static electricity and further growth is inhibited and deactivated by the polyphenol ingredient extracted from apples.

# CONTROLLER FEATURES

These wireless remote controllers are easy to use with simple function settings and a variety of built in timers, energy saving options and a super quiet option.

## AR-RAH2E / AR-RAH1E

### FEATURES:

- 4 Timer modes available (ON / OFF / PROGRAM / SLEEP)
- Easy operation

## AR-REA1E

### FEATURES:

- 5 Timer modes available (ON / OFF / PROGRAM / SLEEP / WEEKLY)
- Easy operation

There are three available options of wired controllers to suit every application required. Easy and simple to use, they help to ensure you get the most out of your air conditioning system.

## UTY-RVNYN

### FEATURES:

- Backlit controller
- 4 Timer modes available (ON / OFF / WEEKLY / AUTO OFF)
- Set temperature range limitation
- Large easy to press keys
- Built in thermosensor

## UTY-RNNYN

### FEATURES:

- 3 Timer modes available (ON / OFF / WEEKLY AND SETBACK)
- Built in thermosensor

## UTY-RSNYN

### FEATURES:

- Backlit controller
- No timer options
- Easy to use

## UTY-DMMYM (EXCLUSIVE TO 5 AND 6 MULTI SYSTEMS)

### FEATURES:

- Control and monitor up to 6 units individually or simultaneously
- Remote control prohibition
- 2 weekly timer schedules with 4 daily commands
- Economy and low noise modes

Like all Kiwis, I put the comfort of my family first.

Installing a Fujitsu will keep you comfortable all year round and ensure you wake up & arrive home to a fresher home.

Our Heat Pump/Air Conditioners are efficient, effective and beautifully designed. You can trust Fujitsu. It's New Zealand's Favourite Air®.

77
